

## Slip Covers (Sold in Pairs) YAM115IVSC

### Yamaha S115IV Speaker

Contour cut to fit snug and look sleek. On the outside main body of the slip cover we use UV resistant 600 denier polyester with interwoven PVC laminate fabric that will not fade, is totally waterproof, mildew resistant and easy to clean. Polyester has proven to be more UV resistant and fade resistant than nylon. Polyester has PVC laminated into the cloth unlike coated nylons which have polyurethane coatings that peel off during use and washing. Two ergonomically correct openings to access handles on the sides make for easy one person transportation. (YAM115IVSC) 28" x 14" x 19" - 1 lbs. 8 oz. (Sold in Pairs)

## Transport Bag PPMTB

### Mackie Powered Mixer 406/408/808M/808S

Contour cut to fit snug and look sleek. On the outside main body of the bag we use UV resistant 600 denier polyester with interwoven PVC laminate fabric that will not fade, is totally waterproof, mildew resistant and easy to clean. This fabric is incredibly durable with high abrasion resistance and tear strength. Polyester has proven to be more UV resistant and fade resistant than nylon. Polyester has PVC laminated into the cloth unlike coated nylons which have polyurethane coatings that peel off during use and washing. The bottom is made from super tough PVC truck tarp with rubber feet. Two ergonomically correct reinforced tubing handles on the sides make for easy one person transportation. Wraparound heavy duty double metal zipper pulls allow for full access to the main compartment. Strategically located 1 1/2" webbing facilitates consistent pull from all areas of the bag. The inside liner is made of 400 denier rip-stop nylon to protect the beautiful finish on the cabinets and connections on the back. For added protection and padding we use a polyweave, 400 micron U.V. stabilized bubble material dual-extruded onto a tear resistant woven polyethylene sheet. This combination of materials forms a strong, durable product that maintains its composure for easy loading of powered mixer. This additional barrier acts as an agent against weather and everyday use. (PPMTB) 12" x 21" x 13 1/2" - 3 lbs. 4 oz.

## Tuxedo Heavy-Duty Garment THDGTB

Travel Bag  
It's known by a number of names... garment storage bag, suit bag, tuxedo bag, bridal garment bag, even dance garment bag and closet garment bag... whatever name you give to it, this garment bag is a great addition to your transportation bag collection. For the true professional, garment bags keep formal clothing neat, relatively wrinkle free, and easy to access.

Simple elegant and eminently practical, A Sound Explosion garment bags are made from rugged UV resistant 600 denier polyester with interwoven PVC laminate fabric that will not fade, is totally waterproof, mildew resistant and easy to clean. This fabric is incredibly durable with high abrasion resistance and tear strength. Polyester has proven to be more UV resistant and fade resistant than nylon. Polyester has PVC laminated into the cloth unlike coated nylons which have polyurethane coatings that peel off during use and washing.

This durable, heavy-duty pebbled 600 Denier waterproof polyester fabric garment bag protects garments for travel or home storage. A full 3" wide gusset provides extra roominess to hold up to 8 assorted garments. It features a full length easy access front zipper. This garment bag is lightweight, durable and versatile. Zip knots on all zipper pulls. Available in black only. (THDGTB) 20" x 3" x 42". 1lbs. 4 oz.

Nifty reinforced PVC shoe bag to isolate the shoes from garments is included. Simply wrap the webbing handles of the shoe bag around your hanger heads. This keeps your hangers and garment together and prevent wear and tear on the bag. Two bags for the price of one! (THDGTBSB) 12" x 14" x 2" - 14 oz.

## Our Comment

We at Bomber Bags receive many comments about the attractiveness of our products. Our primary concerns are rugged materials, quality workmanship, functional design and user comfort. Producing a superior product, using only the best materials, is never inexpensive—nevertheless, our products are very competitively priced and are excellent values.

## Design

By having our finger on the pulse of the professional audio industry we offer designs that secure a dominant market advantage. Being active professional performers ourselves, we know the needs of the professional audio industry and understand the importance of good product design. We design, manufacture and market these products in-house in the United States, this allows us to stay on the cutting edge of new product development. At Bomber Bags we take the professional audio industry very seriously and design our products for people on the move. Our designs will continue to be innovative. We believe that in working directly with retailers, we can give the consumer the quality products they demand.
