

Transport Bag Double Speaker Tripod Stands

Easy use mesh closure

Reinforced grab handle

Our Comment

At Bomber Bags we receive many comments about the attractiveness of our products. Our primary concerns are rugged materials, quality workmanship, functional design and user comfort. Producing a superior product using only the best materials is never inexpensive. Nevertheless, our products are very competitively priced and are excellent values.

Construction

Our Speaker Tripod Bags are characterized by their functional design, hard wearing material and quality workmanship. Made from UV resistant 600 denier polyester cloth with interwoven PVC laminate fabric that will not fade, is totally waterproof, mildew resistant and easy to clean. This fabric is incredibly durable with high abrasion resistance and tear strength. Polyester has proven to be more UV resistant and fade resistant than nylon. Polyester has PVC laminated into the cloth unlike coated nylon which have polyurethane coatings that peel off during use and washing. Dual channel interior with two partitions provide plenty of room for two speaker tripods. One ergonomically correct reinforced handle for easy one person transportation. Mesh closure with pull string makes for easy retrieval and storage of tripods. Available in two lengths. 49" x 8" x 8". Capacity 3136 cubic inches - 1 lbs. 3 oz. 59" x 8" x 8". Capacity 3776 cubic inches - 1 lbs. 11oz. (Sold Single).
